May-Day Operetta By Academy Pupils

A very large and appreciative audience from Wainwright and neighboring towns attended the operetta, "May Day in Flossland," given by the students of the Joseph Academy School of Music last Friday evening, and in which some fifty little artists took part.

Due to the efforts of the workmen and the untiring energy and skillful direction of Mr. J. H. Hickey, the operetta was a most successful one. The school auditorium was sufficiently completed for the occasion. The stage, rendered more convenient by recent improvements, was a perfect flower-land and the operetta, from a standpoint of beauty of costume and finish, was one of the most successful of its kind ever witnessed in town.

The play showed the unusual talent of the young actors as well as the care and skill expended on the part of their instructors. Intermissions were filled in with piano, cello and dancing selections, all of which were heartily applauded.

A special word of praise should be given the tiny tots of Jarrold who, after a very short term of instruction in dancing, acquitted themselves very creditably indeed.

Book Set For Group Education

Something new in group education for adults is to be found in the newly published Staff Foundation Library of the Canadian Pacific Railway. The ten books comprising this library cover all phases of the company's operations in addition to encouraging study designed to make Canadian Pacific employees better citizens. The volumes were arranged and edited by John Murray Gibson, general publicity agent of the company.

Publication of the books followed the requests of many employees for a reading guide and source of information on matters affecting good citizenship, such as Canadian history, geography and economics. The name "Foundation Library" has been aptly chosen because it is hoped that reading of the books will encourage company employees to further study, to add which a list of other books on similar subjects has been printed in the back of each volume.

Included in the arrangement are such books as "Factors in railway and steamship operation," "Speaking in public," "Correct English dictionary," "French self-taught," "History of Canada," etc., and a worth-while volume of 188 old and new Canadian songs is also among the set.

Tire Blow-Out Causes Accident

While returning home from a trip to the city last week-end, Mr. and Mrs. H. Link had an unpleasant experience caused by the blowing-out of a front tire on their car.

Happily they were not driving very fast, so that as soon as the vehicle was slowed down, the car was brought to a stop.

The car ran straight down into the ditch and struck the opposite bank, with the result that the grille and the front fenders were all smashed, but luckily the occupants of the car suffered no serious injury. After putting on the spare tire, the drive home to Wainwright was continued in safety.

Mr. J. Beech has now bought a home on First Avenue and is having it put in shape to shortly move there.

Accident While Moving Building

Mr. George Maddox, of Fabyan, narrowly escaped what might have been a real serious injury, or even a fatality, last week. He was moving a barn from a lot on Fifth Avenue in town to his farm home and had the building jacked up on the rear end of a trailer.

Wishing to remove some of the blocking he cranked under it just as a gust of wind struck it, and caused it to topple off the blocks, and Mr. Maddox was pinned underneath.

Luckily, his plight was noticed and a number of men at work on the separate school rushed over and released him from his perilous position. He was taken to hospital for examination and treatment and is recovering from some fractured ribs and other injuries.

Sees Crop Promise

MR. JOHN MARTIN, advertising manager of the Massey Harris Company, of Toronto, who is completing a business tour of the west. Mr. Martin is truly pleased with the brighter prospects of the prairies with regard to crop conditions.

Bride of Year Taken by Death

Residents of Edgerton and surrounding district were deeply grieved to learn of the death of Mrs. Peter Milne, the wife of one of our most highly-esteemed business men, on May 24th, at the age of 33 years, heart disease being the cause of her passing.

Mrs. Milne was, before her marriage, Miss Valerie Kluck, a daughter of the late Mr. and Mrs. John Kluck of Macklin; the family having moved there from Michigan in 1909.

Before her marriage she taught at Killarney, Chasmin and Pelican (north of Edgerton) schools later spending a year at Cadomin with her brother, Mr. A. Kluck, druggist in that town.

Another brother, Mr. J. Kluck, is the present druggist at Edgerton.

Barely thirteen months have passed since she returned to Edgerton as a bride, where she has always been very popular with all with whom she came in contact. At all times a charming and capable hostess, she will be sadly missed by a large circle, her home being ever open to her many friends.

THE FUNERAL. On Friday last, her mortal remains were laid to rest in the Roman Catholic cemetery at Wainwright, following service at the Blessed Sacrament church there, and the very large number of those in attendance at the funeral, and the masses of floral tributes testified to the esteem in which she was held.

The deep and earnest sympathies of the large number of friends and acquaintances are extended to the bereaved husband and relatives.

CARD OF THANKS. Mr. Peter Milne and the Kluck family wish to express to their many friends their heartfelt thanks for the tokens of sympathy tendered them during their recent bereavement.

Tourney Closes on Golf Links

The local tourney which was arranged by the Wainwright Golf Club, was completed on Sunday last, when splendid weather made the day ideal for the sport.

In the finals for the prizes offered, the following were the fortunate contestants out of a long list of entrants, and the golf course being in real good shape made the play all the more enjoyable.

Men's primary—Phil. Pon, 1 (electric desk lamp); Geo. Clarke 2 (clock); Men's secondary—C. McBride, 1 (thermos jug); T. Torrance, 2 (book ends).

Ladies' primary—Mrs. W. Keenan, 1 (golf club); Mrs. J. Patterson, 2 (overcoat hangers); Ladies' secondary—Miss M. Davidson, 1 (lemonade set); Mrs. J. Telford, 2 (golf balls).

Bishop Burgett Holds Confirmation

The congregation at St. Thomas' (Ang.) church purely taxed the building to the limit on Sunday evening, and quite a number had to stand in the porch for most of the ceremony, which was the impressive rite of confirmation.

Sixteen candidates were presented by the vicar on this auspicious occasion, and the exhortation given them by Bishop A. E. Burgett, of Edmonton, head of the diocese, was truly a deep and meaningful one.

The choir was augmented for the occasion, and the whole congregation joined heartily in the hymns specially selected for the service.

Those receiving the "baptism of hands" were:—Jack McLean, Joseph Rutherford, William Coleman, Harry Batchelor, Leslie Findall, Geoffrey Taylor, Frederick Thurston, Elsie Horn, Rachel Wear, Ellen Wilkins, Marjorie Co-field, Alice Findall, Edith Shaw, Kathleen Rutherford, Ellen Shaw and Florence Bacon.

In a similar service held at Irma in the morning the candidates were:—Leo Thurston, Ronald Thurston, David Holt, Muriel Wilbraham, Lilian Inklin, Mary Holt and Esther Peterson.

Edmonton Jubilee Exhibition Flashes

Edmonton's Diamond Jubilee Exhibition opens July 18th.

Many changes have taken place in Exhibition matters in the past sixty years, and none is more noteworthy than the change in livestock.

The most noticeable changes are in hogs and cattle, the two mainstays of the mixed-farming establishment, and each change marks some material improvement, to conform to changing market demands.

The live stock raiser who would be modern should inspect carefully the livestock in Edmonton Exhibition showings, July 18th to 23rd.

Livestock entries close June 25th; farmers are invited to send for free list of Edmonton's Sixtieth Exhibition.

Departing Members Honored by Union

The members of the United Church Young People's Union gathered at the church on Wednesday evening last to bid farewell to Hilda and John Daugherty, who are leaving shortly with their parents for the Isle of Man to reside.

Entertainment took the form of an "Automobile Party" and a merry time was spent in the various games and contests arranged, and the "filling station" was well equipped with tasty eats.

Alex Caldas very fittingly expressed the feelings of the Union in losing two such valuable members and upon the presentation of small tokens of remembrance by Viola Vall, wished them much happiness in their new home.

A short song provided a fitting close to the evening.

The Wainwright Dairy now have their new semi delivery truck at work, and it makes quite a nice improvement in their equipment.

Mr. Murray Pawling has now returned to the city after spending a short holiday with his mother here.

Plane Wins Race With Death

Racing against death, a United Air Transport plane piloted by Ernie Kibicki made a special flight from Cadomin on Tuesday last week to rush Mr. A. Kluck to the bedside of his sister, Mrs. Peter Milne, who was passing away at her home in Edgerton.

Mr. Kluck took train to Edmonton immediately upon receipt of the news of necessity for haste, and the plane, which had been rushed to that point from Edmonton, carried him to Edgerton, which place he reached in time to be with his sister and other relatives before her passing away.

We Wonder Why?

Have the merchants and business men of our fair town got into such an apathetic state that they are willing at all times and under all circumstances to let "GEORGE DO IT"?

To judge by the attendance at the meeting called for Friday last to discuss the annual Dominion Day celebration, it would seem that most of those concerned stayed away so as to shirk any responsibility or to miss "getting a job".

From 7.30 until 8.15 (when the Mayor called the thing off until tomorrow—Thursday—) evening less than a dozen put in an appearance and we would counsel those desirous of seeing a celebration in Wainwright this coming July 1st to be on hand at 8 p.m. and have this matter threshed out.

Rev. Dalgleish President United Ch.

Rev. R. W. Dalgleish, B.A., of Clairholm, was elected president of the Alberta Conference of the United Church of Canada at a meeting of the Conference Thursday morning. Dr. Dalgleish, who has been secretary of the Settlement Committee since the union in 1925, succeeds Rev. Hugh D. Leitch, D.D., of Wetaskiwin. His term runs for one year.

Rev. R. E. Pow, B.A., secretary of the Conference for the past year, was re-elected to that position.

Mr. Chas. Hutchison was in town on business for a few days last week.

30,000 Tourist Booklets Issued

Making a fresh bid for tourist business for this province, the trade and industry department of the Alberta government has just issued 30,000 tourist booklets.

These attractive booklets, handsomely illustrated with a large amount of data concerning the tourist delights of this province, are being distributed to motor clubs, boards of trade and chambers of commerce.

The Northwest Tourist Association, which will supply various applicants in the western states, besides many individual applicants in the United States and Canada.

The booklet is a first-class product in every way, its quality being entirely on a par with the high standard of tourist attractions it so fittingly describes.

Issuance of the booklet is in accordance with the aims and objects of the Alberta Motor Association which stresses the need of widespread publicity in order to increase the volume of tourist business for this province.

Demonstrating the fact that tourists are again on the move in record numbers, the railway officials stated recently that bookings for special tours through western Canada were the heaviest in the past eight years.

With railway business showing such a gain, no doubt motor touring will reveal a similar increase this year.

Alaska Travel Proving Attractive

Accepting the unusual volume of inquiries and actual bookings as criterion, travel to Alaska during the coming cruise season will be very heavy, according to A. B. Chown, passenger travel manager of the Canadian National Railways at Chicago.

The company operates a fleet of cruise vessels from Vancouver, British Columbia, to northern ports as far as Skagway and Sitka. The pleasures of an ocean voyage in sheltered waters is an attractive feature of the Alaskan journey.

Better Farm Prices Are Predicted

When interviewed on Friday last, Mr. J. H. Hickey, advertising manager for the Massey Harris Co., who was en route home after a month's visit to various agencies all over the prairie provinces, said, in part, "The country looks in great shape and there is ample evidence of a return to normal moisture conditions such as the west has not had for ten years. It looks as though things have changed for the better, and that a brighter day has dawned for Canadian agriculture."

"Normal precipitation during the growing season is all that is required now to ensure a good average crop which should be readily marketable at a price which will bring good returns to the western farmer, and reward them for their marvelous optimism and dauntless courage during the past several years."

"Stocks of wheat," he said, have reached the lowest point in many years, so that the disposal of the 1938 crop should not be encumbered by unwieldy surpluses, and therefore better prices for the returns from the farm should prevail."

Transformation of Famous Street

The fame or infamy of New York's 52nd street, as the word for it may chance to be in a given cinema sector, is dashed up without glorification or denunciation and fitted out in style to suit all movie fans. It tells the story of the street's transformation during the last quarter century from hyper-aristocratic 1912 to a giddy and giddy 1937.

Names of appeal are Ian Hunter, Leo Carrillo, Zasu Pitts and Pat Paterson. Kenny Baker has both a serious and a singing role. The serious story, incidentally, is treated seriously and given equal prominence with the song and dance numbers which, perhaps, occupy a little more footage. The picture is clean, singularly so in view of its subject, and is brisk, bright and varied and vivid.

The story of "62nd Street" which shows at the Elite this week-end, is essentially a "Rondella," aristocratic of the street in 1912, whose fortunes were not determined by the great of '29 and recouped out of speakeasy profits. One thread deals with a "Rondell" daughter kept in supposed ignorance of her father's occupation, another with the son of one "Samarelli," his partner, schooled for the stage and determined to be a crooner.

A dozen other characters have direct relation to the working out of the story, at the end of which, of course, boy and girl find happiness.

The story of "62nd Street" which shows at the Elite this week-end, is essentially a "Rondella," aristocratic of the street in 1912, whose fortunes were not determined by the great of '29 and recouped out of speakeasy profits. A dozen other characters have direct relation to the working out of the story, at the end of which, of course, boy and girl find happiness.

Alberta Bills To Privy Council

Work of preparing two Alberta higher court references is proceeding, according to Hon. Lucien Maynard, minister of municipal affairs.

It is expected that W. S. Gray, K.C., and James J. Priddy, K.C., of the attorney-general's department will appear on behalf of the province.

Work is also proceeding on the Alberta argument to go before the Privy Council on the five-point reference which was before the supreme court in Canada last winter.

O. M. Biggar, K.C., of Ottawa, is preparing argument and counsel has been retained in England. Mr. Frawley may go to London for this hearing.

Underwood Trophy Still in Edmonton

Although it took a fourth game to make the decision the Underwood trophy, emblematic of the international championship in basketball, still reposes safely in the care of the Commercial Grade of Edmonton.

The game on Monday evening last was a strenuous one as the challengers—Cleveland Fisher Foods—seemed determined to repeat their win of Saturday if at all possible.

However, "our girls" finished with a healthy lead in the scoring at the close. The scores in the four games were: Tues. Grade, 61; Cleveland 58. Thurs. Grade, 53; Cleveland, 24. Saturday, Grade, 36; Cleveland, 44. Monday, Grade, 61; Cleveland, 48.

Mr. A. Currie, of California, is a guest at the home of Mr. A. Rajotte, of Greenhalghs.

Vale Prepares Foil Grasshopper Pest

A regular meeting of the Council of Vale M.D., No. 392, held on Saturday, May 21st, at 11 a.m.

All councillors were in attendance, with Reece Castle presiding.

Moved by Coun. Currier—That minutes of April 18th, dealing with the appointment of firewardens, be amended to read in addition "that remuneration for such services be at the rate of \$3.00 per day"—Carried.

Moved by Coun. Currier—That minutes of April 18th be adopted as read.—Carried.

Report of Coun. Nelson dealing with his attendance at meeting of the Provincial Hospital Board, held in Provost on May 12th, was at this time submitted.

Moved by Coun. Jerram—That this report be received and delegate discharged of same.—Carried.

Moved by Coun. Currier—That \$1/4 4-2-6 With be loaned to C. LaFarge for the term of one year, lease to be on a quarter-share basis to the district and to include a like share of all hay and fodder raised.—Carried.

Moved by Coun. Nelson—That matter of allotment of Mothers' Allowance to Mrs. Marjorie Woodcock be further investigated before action is taken in this matter.—Carried.

Moved by Coun. Currier—That any further action pending the new assessment of this municipal district be left over until the third of August, when the District as constituted in his communication of 17th inst.—Carried.

Moved by Coun. Currier—That Thos. Motley be appointed as firewarden for Division Three as former appointee has advised of his inability to act in this capacity.—Carried.

Moved by Coun. Castle—That the Secretary be permitted to attend the secretary-treasurers' convention to be (Continued on Page Four)

IN MEMORIAM

In loving memory of our dear husband and father, Phillip Perras, who passed away June 1st, 1937. Nothing but memories as we journey on.

Longing for a smile from a loved one gone. None knows the depth of our regret. But we remember when others forget.

Ever remembered by his wife and sons
M. A. Perras.

Vermilion Fair Plans Underway

Young men and women are invited, according to the advertisement appearing in this paper today, to attend the popular Vermilion fair summer camp at the school of agriculture from July 27th to July 30th, inclusive.

The fair board pays the board of all students attending the short course and provides for instructors and sport leaders. The only charge made for these courses is a registration fee of \$2.00—all other costs are borne by the Vermilion Agricultural Society—why not send your boy or girl, between the ages of 15 to 20, to Vermilion fair summer camp—and then you visit the fair yourself on Saturday, July 30th, to enjoy the last day of the biggest and best fair with your happy summer camp children.

Long famous for its livestock show, the Vermilion fair has, in recent years been brought up to a high standard for the entertainment offered patrons and this year the grandstand attractions in particular are most outstanding.

A feature of the show will be the Hoaglan Hippodrome, comprised of 24 fast horses and 20 trained riders and drivers, and exhibitions of high jumping, chariot racing, etc., will delight both old and young. Captain Vanderwahl's trained lions will provide thrills which you have never experienced before.

Vermilion Fair offers substantial prizes for livestock (pure bred and grade), for farm produce, and for handicraft; 1938 prize lists are just off the press—send for one today. Write S. C. Heckbert, secretary-manager, for full details.

Motor Patrol is Put in Service

Again this year the Edmonton branch of the Alberta Motor Association will operate a motor cycle patrol on main highways leading into the city.

Announcement of this decision was made recently by Secretary J. A. McNeil.

The patrol will cover roads within the district, striving not to get convictions against motorists for infractions but rather to popularize the work of motor clubs.

First aid equipment is carried by the patrol so that help can be given in case of accident.

The practice followed so successfully last year and which will be repeated this season, is to draw the motorist's attention to any defective equipment, for example, and thus win his appreciation instead of his condemnation.

Work last year is believed to have aided materially in reducing the number of highway accidents in the Edmonton district.

Those in need of help or assistance after breaking down on their motor trips were given prompt aid or direction by the patrol.

As an evidence of the interest in this service, its adoption is now being considered by the Calgary branch of the A.M.A.

NOTICE

By authority in me vested a **PUBLIC MEETING** will be held in the Town Hall, Wainwright, on **THURSDAY NEXT, June 2, at EIGHT O'CLOCK** sharp to discuss the advisability of holding a celebration in Wainwright on July 1st next.

J. G. MIDDLEMASS, M.D.

Mayor of Wainwright

A FEW CANDID WORDS ABOUT BANK EARNINGS

Half of one per cent. a year on total assets is not much of a profit margin for any business, corporate or individual.

Yet that is all the "velvet" there is in the business of Canada's chartered banks.

Banks pay interest on personal savings deposits. They charge interest on loans.

The difference is not all "velvet" by any means—for these reasons:

- (a) It costs money to operate a bank.
- (b) The cash reserves held by the bank earn nothing.
- (c) A bank must provide for losses.
- (d) Earnings on a great deal of a bank's assets are very low.

More than 25,000 people are employed in Canada's banks. In the last ten fiscal years Canada's chartered banks have paid in wages and salaries, some \$76,000,000—purchasing power distributed over the Dominion.

In the same ten years banks paid in taxes to municipalities \$40,831,930; to provinces \$14,429,320, and to the Dominion, \$24,027,324, a total of \$79,288,574.

Banks have other costs, too: Rent on premises; stationery and printing; light, water and fuel; contributions to pensions and group insurance for employees. Depreciation on buildings takes a large amount each year.

Any money a bank pays—taxes, wages or other costs—can come only from the bank's resources—and must be paid in cash. No magic can produce it.

Banking is not all sunshine. It has its cloudy aspects too. Banks must stand ready to pay their creditors—the depositors and note-holders—a hundred cents on the dollar; but banks unfortunately cannot always collect a hundred cents on the dollar! They have losses, inevitably, and must set aside substantial sums to meet them.

A bank must keep itself in such a cash position as to be able to pay you your deposit whenever you see fit to withdraw it.

Chartered banks are required by law to lodge with the Bank of Canada, or hold in Bank of Canada notes, five per cent. of their depositors' funds; but, in practice, they always carry about twice that percentage.

Deposits with and notes of the Bank of Canada earn no interest for the chartered banks.

It is necessary also to keep a further amount in short term investments readily convertible into cash. The yield on such investments is low, firstly, because Treasury Bills and other short term securities mature at short dates; secondly, because banks having no monopoly of money or credit—cash reserves of many industrial concerns compete for this type of investment.

Bank earnings depend very largely upon loans, but a bank can lend only when the customer wants to borrow.

Ordinary bank loans in 1929 averaged \$1,342,000,000; in 1937 only \$731,000,000.

THE CHARTERED BANKS OF CANADA

Your local branch bank manager will be glad to talk banking with you. He will be glad to answer your questions from the standpoint of his own experience. The next article in this series will appear in this newspaper. Watch for it.

THE WAINWRIGHT FLOUR MILL

The World of Wheat

H. G. L. Strange,
Director, Research Department,
Searle Grain Company, Ltd.

The Taragost Royal Grain Inquiry Commission has now reported after fourteen months of investigation and after hearing 262 witnesses. The Commission finds—

That the open Futures Market is the best method of selling Canadian wheat and of obtaining the highest price for the producer.

That a Supervisor should be appointed on the Exchange to investigate and report when required.

That the Speculator is necessary, that he is not a burden on the farmer but on the contrary lessens the spread between producer and consumer, and at his own expense, and makes a ready market at all times for the farmer's grain.

That a Compulsory Wheat Board is not advisable.

That Co-operative Marketing Societies should be encouraged but that they should be flexible and voluntary and more on the Australian model and not necessarily of large size.

That there has been in the past too much agitation and talking in connection with the business of co-operative marketing, and that this has created antagonism.

That the stabilisation operations of the McFarland Board, while they provided the producers with higher prices, were injurious to the sale of Canadian wheat.

That the Murray Board did not protect speculative "short" interests.

That the present Wheat Board should not be dissolved immediately.

Now that the questions which have been bothering many people for some time have finally been answered by a most competent and disinterested authority, I suggest that the time has come to let bygones be bygones, to forget past differences of opinion, and for us all to work harmoniously together to deal with the three serious wheat problems which still must be solved: To reduce the cost of wheat production; to improve the quality of our wheat; to win and to retain the goodwill of the world's buyers.

Let us all pull together with a friendly spirit, then I am sure will these objects be attained, and the farmer's welfare improved.

Following factors have tended to raise price: France still further devalues the franc—Crop conditions are poor in some European countries—Substantial decrease indicated in Canadian spring grain acreage—Algeria and France reported purchasing Canadian Durums—Report of increased rust damage in Oklahoma—Netherlands to accumulate emergency grain stocks.

Following factors have tended to lower price: U.S. winter wheat crop officially estimated at 754 million bushels—Western Canada seeding makes favorable progress—Beneficial rains in the U.S. spring wheat belt—Switzerland increase import tax on wheat, oats, barley and corn.

MODERN WOMEN

CHARL ORMOND WILLIAMS
President of National
Federation of Business and
Professional Women's Clubs, Inc.

One woman who practices what she preaches and has won awards for doing so, is Miss Emma T. Hahn of Washington, D. C. She is president and manager of an inn there and often stresses in speech and conversation the importance of business and professional women having a home with a garden, both for relaxation and as an aid to well-balanced living. Her suggestion is, of course, for those women who live in small towns, the suburbs or the country. For her own garden Mrs. Hahn has received a first prize from the Washington Board of Trade and another first for the architectural design of her house.

One more tradition shattered is that women changing their minds so often, oftener than men. I base this statement on a survey made recently at Bucknell University, Lewisburg, Pa., where it was found that nearly twice as many men as women have changed their program of study in a given time.

Having been indignant at the startling tales told by the rubber-neck guides on their tours of Chinatown in New York, a young Chinese woman, Helen Moyne, has organized an official tour bureau based on truth telling and country scholarship and well-informed Chinese guides. She also operates several other businesses including a tea shop.

Three-fourths of the employees in the seven divisions of the United States treasury are women. One of the most active of them all is Mrs. Blair Bannister of Virginia, the Assistant Treasurer, whose signature must be affixed to all United States Treasury statements as well as the monthly statements of the public debt, expenditures and outstanding paper currency.

For more than fifty years Miss Miona J. French has worked in the same real estate and insurance office in Atlantic City. She is vice president of the firm.

Don't Miss This Amazing Value!

PYREX for only **25¢**
MEASURING CUP

— and label from a tin of Magic Baking Powder — any size. We pay all shipping costs ...

2-YEAR GUARANTEE

If this PYREX Measuring Cup should break from hot liquid within two years, it will be replaced absolutely free by any Pyrex dealer in exchange for the broken pieces.

Transparent—You can see to measure quarters, thirds and halves.

Accurate two-way graduations—Can be read with cup held in either hand. It will read for either cups or ounces.

Smooth Inside—Graduation marks are outside. Easy to keep clean and sanitary.

Cool handle—No burnt fingers, no matter how hot the liquid in the cup.

Always bright and new—Resists fruit juice acids and vinegars. No discoloration or corrosion.

• ACTUAL SIZE

You've wished for a thousand times! A measuring cup you can see through—that you can use with hot liquid without fear of breakage. Clean, sparkling glass that cannot dent or corrode. Always looks new—through a life-time of service. Accurate, convenient—a joy to own!

And here is your opportunity to get this measuring cup for only 25¢—far less than its actual value.

Our sole reason for making this valuable offer is this: We want every woman in Canada to try Magic, and find out for herself what delicious results she can get with this finer baking powder.

All you do is get a tin of Magic from your grocer, and send the label with 25¢ and the order blank below. But send your order right away. This offer is good only while the supply of cups lasts.

CONTAINS NO ALUM

Complete list of ingredients on every tin. Magic Baking Powder is free from alum or any harmful ingredient. (Alum is sodium aluminum sulphate and is never used in Magic Baking Powder.)

MADE IN CANADA

ORDER BLANK

Magic Baking Powder, Toronto, 2, Ont., Box 5. Please send me, free of shipping costs, one box PYREX measuring cup, with 2-year guarantee against breaking from hot liquid. I enclose 25¢ and a wrapper from a tin of Magic Baking Powder, any size.

CANCER RACES WITH TIME

Notwithstanding what you may have thought to the contrary, cancer can be and is cured in many cases by proper treatment given in the early stages of the disease.

Time is the deciding factor as to the results which may be hoped for through treatment. If the cancer can be removed or destroyed, the condition can be cured; the chances for doing this depend upon whether or not the disease is localized in one place.

The millions of cells which go to make up the human body all come from one original cell, the fertilized ovum or egg. For some reason which is as yet unknown, a single cell may start to grow independently, apparently no longer under the control which regulates the normal growth of body cells. This one cell multiplies to form a growth which, if it is malignant, is called a cancer.

The important fact in this, and the one which everyone should understand is that cancer does begin in this way. It means that for a period of time, every cancer is a local growth. Later cancer may spread to distant parts of the body, but in the first place it is limited to one part.

This is of significance as regards treatment. A local growth can be removed by surgery or destroyed by radium or x-rays. It is because cancer is, for a time, a local growth that cancer can be cured by proper treatment.

There are no germs, diets, salves or secret remedies which cure cancer. It depends upon the kind of cancer and its location as to what is the best treatment. For treatment, we have surgery, radium, and x-rays, either alone or in combination.

Time decides the outcome. The delay of even one day in securing proper treatment lessens the chance of a favourable result. The day comes when the curable cancer becomes incurable, because of delay, neglect or ignorance.

Cancer is cured when the right treatment is used early enough. To experiment with self-prescribed or advertised remedies is to waste the time when proper treatment can help. Time lost during the early stages can never be regained. It never pays to

wait and see; it is always profitable to consult a competent physician in order that proper action may be taken at the proper time.

INGRATITUDE

We can be thankful to a friend for a few acres, or a little money; and yet for the freedom and command of the whole earth, and for the great benefits of our being, our life, health and reason, we look upon ourselves as under no obligation—Seneca.

Says

Tolerance Needed This Year

A good working knowledge of Mother Goose is a useful part of any
man's education. Those nursery jingles, planted in our childhood minds,
are much more than mere doggerel. They contain the accumulated wis-
dom of the ages. If you would find a pattern for today's intolerance
and unfair denunciations of political opponents, read the following:There I met an old man who wouldn't say his prayers;
I took him by the leg, and threw him down the stairs.The hero of those lines embodies the unquenchable spirit of the
Zealot. He has no doubt about the purity of his own motives; he does
not trouble to get the facts; he will not be delayed by any suggestion
that there may possibly be two sides to the question. Not a bit of it.
He knows he is right, and he acts.The "old man" who "would not say his prayers" may have had a
good reason for his position. Perhaps he was writing a letter to his
mother. Maybe he had said his prayers the night before, and thought
that once a day was enough. "So you won't say your prayers, eh? All
right, then down the stairs."In the forth-coming campaign the population of the United States
presently will be divided into two angry denunciatory camps. Neither
side will give the other credit for any virtue. My hope is that in be-
tween the contending camps there may be a little remnant of folk who will
maintain a degree of tolerance.The nation will survive no matter who is elected. And it will need
the ministrations of even-tempered folks to bind up the broken limbs
and anoint the bruised muscles of those who have been thrown down
stairs.

Let's Live 100 Years

Like every man in New York who is earning a little more than his
expense to support some unproductive acres in New England. Of all
extravagances this is perhaps the soundest and most rewarding. It sets
the feet of the exotic flat-dweller once more upon his own land. It
ministers to the elemental craving to build and to do.City work leaves no monuments. One is transported to an office,
spends his day in making marks on paper, and is carried home tired at
night. But on the farm in New England one moves stones from thither
to yon. One digs ditches and changes the course of flowing water; one
demolishes and rebuilds, and so allies himself with the conquerors of
continents and the architects of empires.As an investment there is nothing so profitable as a New England
farm. To be sure, no crops are raised, but there is the priceless crop
of independence.On the first warm week-end each spring I go up to my farm and
walk around and view my life work. Here I have made sure that my
influence shall continue.After I am dead there will be a few weeks when people may say:
"He wrote pieces for the newspapers." Then for a few years they may
say: "He was the father of so and so." But long after that, long after
the name is forgotten, there will be great trees in which the birds of
the air will make their homes, and under which the sons of men will
find rest. The trees that I planted.In the life of my trees I shall lift my face to the sun and cast my
shadow upon the earth for a hundred years. My advice to the members
of my congregation is this: extend your influence . . . live a
hundred years . . . plant a tree.

Our Farm News Letter

B. Leslie Emalie, C.D.A. (Glas.) F.C.S.

FEEDING AND CARE OF THE
MARKET PIGIn order to bring the pig to market
in the shortest possible time
with a minimum feed cost, it must re-
ceive a balanced ration and be kept
in a thrifty growing condition from
birth to finish. The Dominion Ex-
perimental Farm, Indian Head, states
that W. W. Cram, offers the following
suggestions on the care and feeding
of market pigs.The first warm week-end each spring I go up to my farm and
walk around and view my life work. Here I have made sure that my
influence shall continue.After I am dead there will be a few weeks when people may say:
"He wrote pieces for the newspapers." Then for a few years they may
say: "He was the father of so and so." But long after that, long after
the name is forgotten, there will be great trees in which the birds of
the air will make their homes, and under which the sons of men will
find rest. The trees that I planted.In the life of my trees I shall lift my face to the sun and cast my
shadow upon the earth for a hundred years. My advice to the members
of my congregation is this: extend your influence . . . live a
hundred years . . . plant a tree.The return of the robin with his
cherry song heralds the beginning of a
new crop year. Warm April showers
have aroused plant life from its long
sleep, and the farmer who is well
worn of winter chores eagerly wel-
comes the sight of green grass grow-
ing in the pasture field. Now pro-
duce more milk and meat classes of
livestock can be fed more cheaply on
it than on any other feed. In truth,
says G. R. Snyder, soil chemist, grass
is the key to profitable livestock pro-
duction, and means of promoting its
early and continuous growth forms a
definite part of a progressive policy.
Farmers have long recognized the
importance of seeding the most pro-
ductive strains of wheat and other
cereal, but have generally overlooked
the fact that there may be as much
individuality in the various timothy,
clover or bluegrass plants in a pas-
ture or hay field as one finds in the
different strains of wheat. Herbage
experts recognized this fact some
time ago and I have made great pro-
gress in the development of improved
heavy strains of pasture grasses
through selection and cross-breeding.
Pasture seed with these may well
provide food for more animals for a
longer season.The principle that old weary pas-
tures can be improved by plow-
ing up and reseeded with simple
compatible mixtures, has rapidly
gained recognition. Before reseeding
however, the fertility of the soil must
be restored. The minerals, especially
calcium and phosphorus, have been
carried off in the bones, teeth, blood
and milk of the animals and these
must be replaced. There is also much
to be said for good manuring and the
thorough cultivation to improve the
physical condition of the soil and de-
stroy the weeds.The growing pig thrives best in
clean, dry comfortable quarters with
shelter from wind and sun. Allow
moderate exercise which may be pro-
vided by giving access to a small yard
or pasture for daily periods
when weather permits. Less exercise
is necessary as growing and finishingperiods progress. Some green feed in
the form of pasture, cut green feed
or cured legume may be beneficial.
Supply clean drinking water to pigs
of all ages.The feeding period advances the
proportion of barley in the ration
should be gradually increased so that
at 80 pounds live weight the pigs will
be receiving equal parts of oat and
barley chop, by weight, with 1 1/2 to 2
pounds of skim-milk per pound of
meal feed or eight per cent. of tank-
age. From 150 pounds live weight
until the market weight of 200 to 215
pounds is reached a finishing ration
of one part of oat chop and two parts
ground sifted oats and oat middlings
of barley chop by weight with 1 1/2 to
two pounds of skim-milk or 5 per cent.
of tankage, will give good results.

Accounts rendered monthly.

WEDNESDAY, JUNE 1st, 1938

LET'S GET
TOGETHERAlong with all the other business
men of Wainwright, The Star tries to
serve the needs of the district in its
own particular line of endeavor, and
therefore—along with these business
men—we need your full support.With you, our readers, as citizens,
and with the others in business here,
we are trying to build a bigger and
better Wainwright. A town worthy of
our best efforts. This can never be
done without all of us working and
pulling together.Consider the lot of the average busi-
ness man. He is assessed on the tax
roll for the lot or lots on which his
business premises are located. Natu-
rally he desires sufficient space for
the accommodation of his customers,
and in order to give the best of ser-
vice he can afford. He thus provides
for the maximum of prospects, and
stocks up accordingly. It hurts, and
hurts deeply, when he sees many of
his customers hire off to other towns
and cities to procure the same articles
which he has to sell—usually at the
same prices or thereabouts.The same can truthfully be said of
all of the business in our town. What
a splendid thing it would be if all
would consider first the Home Town
Merchant and Business Man.We have recently examined some
orders for printing brought into Wain-
wright (the result of high-pressure
salesmen), and it is plain to see that
these salesmen were not entirely hon-
est in their presentation of facts; had
rather disappointed the buyers; and
had received their "money on the line"
for the order supplied.These dollars taken away never
benefitted Wainwright one iota. We
have a town to maintain; schools to
operate and pay for; hospital to be
supported; salaries to pay. In order
to meet these payments, revenue has
to be collected. If support of our lo-
cal institutions falls to the point
where they have to close up then we
will either have to pay more taxes for
our homes and property or else dis-
pense with the advantages which we
at present enjoy in our town.We are not unimpaired of the fact
that city stores can offer greater vari-
ety in some instances because of the
larger turnover; but to offset this, if
we were as loyal to our local institu-
tions as we should be, the local mer-
chant's turnover would be much greater
and his selection and variety corre-
spondingly larger. Think that over.Now, dear reader, it all boils down
to this. Your home town business and
professional man—whether grocery
man, hardware dealer, dentist, doctor,
barber, printer, lawyer, coal man
or what not—should be first in all our
minds when goods in their several
lines are required. True, we might
do without any of them, but we don't
want to have to do so. There are
times when all of us need them badly,
and we can be sure of keeping them,
and also of making their business path
easier if they can get a break in the
spending and circulation of the money
which is spent in Wainwright each
day and each week—and also that
portion of our substance which is de-
liberately sent out of town.YOU TOO
CAN HELP!Hopelass as it may look to try and
battle the billions of grasshoppers
which have been for some years ad-
vancing on us, they can, with co-op-
eration and properly timed action, begreatly diminished, says the Chasiv
Chronicle.If anyone had suggested thirty
years ago that it would be possible to
practically eliminate yellow fever
bearing mosquitoes from tropical re-
gions in Central America, they would
have been called a dozen fools. You
would have joined in their ridicule—
But it has been done—Just by the
use of common sense and co-operation.Grasshoppers will be beaten by the
same methods. Can you be counted
on to do your share? It is for your
own good as much as for the good of
your neighbour. You are not work-
ing for the Municipal Council or the
Government—you are working for
yourself.It might be added that there is no
particular threat of great infestation
this year—nor is there promise of
freedom from this pest. All condi-
tions indicate the wisdom of watch-
fulness.BECAUSE HE'S
MY FRIEND(By John Edwin Price)
I'm so happy in his presence
Saying things I think and feel
I don't have to be too careful
For I know his love is real.What is good he'll take and ponder
What is chaff he'll blow away;
Nor will they be held against me
When I call some other day.In this world of hate and sadness
What a joy it is to know
One true friend who treats you
kindly
When you come and when you
go.

GREENSHIELDS

The Sports Club are holding a dance
on Friday. Everybody welcome.
Mrs. K. Bond and Bunny went to
the city on Thursday.Mr. R. Bond is in the hospital with
an attack of chest pneumonia.The pupils of Greenshield's school
travelled to Edmonton on Saturday to
attend the track meet but owing to
hard luck came home without a prize.Mr. Tom Patterson is now driving a
new Hudson Six.The boys' football team have play-
ed three games and won all of them
17-14, 18-2, 15-5. Good going, boys!CONTINUATION OF
VALE M. D. COUNCIL(Continued from page one)
held in Edmonton on June 6th and
9th and that he be granted the sum
of \$15.00 to defray expenses—Carried.Moved by Coun. Currier—That each
Councillor be appointed a committee
to handle the grasshopper situation in
his division.—Carried.The synopsis of the different ac-
tions at the recent session of the
provincial legislature were at this
time read by the Secretary.Moved by Coun. Nelson—That this
information be received and the Sec-
retary instructed to procure the sev-
eral acts referred to.—Carried.Moved by Coun. Castle—That notice
of the granting of Mothers' Allowance
to Mrs. Alvina Klippert, in the sum
of \$20.00 per month be received
and filed.—Carried.Moved by Coun. Jerram—That noti-
fication from the Alberta Association
of Municipal Districts, informing the
Council of the appointment of Mr. J.
E. Brownlee in place of the late Mr.
P. G. Thompson, as Council for that
association, be received and filed.—
Carried.Moved by Coun. Treffry—That a
grant of \$10.00 be made to the Beulah
Home in response to their appeal for
funds.—Carried.Moved by Coun. Jerram—That the
following recommendations for public
works, as submitted by Councillors of
the respective divisions (Form B), be
approved by Council as a whole: Div. 1,
\$1340.00; Div. 2, \$294.61; Div. 3,
\$1313.07; Div. 4, \$342.65; Div. 5,
\$969.74.—Carried.Moved by Coun. Nelson—That com-
munication from Department of Ag-
riculture, re collections of feed and
fodder advances for 1936-1937 be held
over for further information.—Car-
ried.MAKING CANADA
A Better Place in Which to LiveA Series of Letters from Distinguished Canadians on Vital Problems
Affecting the Future Welfare of Canada

Specialty Written for Canadian Weekly Newspapers Association

LETTER No. 8

I feel that the publishers of Cana-
da's weekly newspapers can make a
lasting and worthwhile contribution
towards making Canada a better
place in which to live and work by en-
deavouring in their columns to build up
a real appreciation of Canadian insti-
tutions and resources. I know by practical
experience how many men in lat-
er life hold prominent positions in the
business, financial and professional
worlds, who have come from the rural
districts. It seems to me that the
home newspapers of those districts,
among the first periodicals which the
young people can read can build into
the hearts and minds of their younger
readers a clear understanding of the
worth of our national heritage, and
leave with them something they willnever lose in later life. I cannot but
deplore the flood of foreign periodicals
many of them second-rate editorially,
which is coming into Canada at this
time. It seems to me if we are ever
to build Canada into the nation to
which we so often refer, we must start
by building good Canadian citizens. I
cannot think of a better place for this
to start than in the columns of Cana-
da's weekly newspapers. I would
enjoy discussing this with you some-
time when we can have a chance to
sit down together.Yours very truly,
B. W. KERRICKLEY,
President, Association of Cana-
dian Advertisers.
Advertising Manager,
Canadian Industries Ltd.
Montreal, Que.Moved by Coun. Currier—That the
following correspondence be ordered
filed: Bureau of Public Relief re J. H.
Stephenson; H. J. Ordway pounds;

PUBLIC NOTICE

RE: AGRICULTURAL PESTS ACT
RE DESTRUCTION OF GRASSHOPPERS

THE MUNICIPAL DISTRICT OF GILT EDGE

No. 422

To: All owners and occupants of land.

Your attention is directed to the provisions
of the Agricultural Pests Act, which requires
every owner and occupant of land to destroy
all pests specified within the aforementioned
Act.The Municipal District is required to direct
and see that every owner and occupant of land
takes the necessary precautions and conducts
an active and aggressive control programme
with respect to grasshoppers present on lands
under its control.The Act provides for quite severe penalties
for anyone failing to comply with its regula-
tions.A research conducted by The Department
of Agriculture last season indicates that this
district may expect to be troubled with Grass-
hoppers in 1938. While it is believed that
the weather conditions so far this spring have
been unfavorable to the hatching of the grass-
hopper eggs every occupant of land should re-
port any patches discovered to their Councillor
or the Secretary immediately.Your attention is directed to the sugges-
tions made on the government poster which
can be seen at the Municipal Office.

AMONG THE OLD-TIMERS

"REMINISCENCES OF OTHER DAYS"

TEN YEARS AGO

"The Arrival of Killy," which was presented by the Wainwright Dramatic Club on Wednesday evening under the direction of Mr. R. G. Dunmore was greatly enjoyed by the large number which attended.

Mr. Wm. Seal purchased a new Chrysler "32" from the local dealers last week.

The Alberta Pacific Grain Co. have added an addition to their elevator in town.

Mr. Alec Swanson made a trip to Dayland last week with the household effects of Mr. and Mrs. Holikway.

Fire broke out in the private garage of Mr. J. Taylor on Sunday evening, causing considerable damage to the building and the car. It was found that gas was leaking and when a match was struck to locate a missing tool, an explosion occurred.

The wedding ceremony was performed at the United church manse on May 31st between Mrs. Mary Felix and Mr. W. I. Lemaster. The couple took up residence on the groom's farm at Fabyan.

Mrs. M. Peterson sold her Women's Specialty Shop to Mr. A. Wittmann, who arrived in town with his family at the week end.

A new elevator is being erected at Greenhills for the Wheat Pool.

Miss Edwina Cork was the winner of a short course scholarship at the Vermilion school of agriculture, having obtained the highest marks in the school inspectorate at the last school fair.

Mr. A. Kluck has taken over the Edgerton Pharmacy formerly owned by Mrs. Chas. Bangrove.

Mr. and Mrs. J. Ambrose left for Vermilion to reside.

Sheepskin Flats

The people of this district extend their deepest sympathy to Mr. and Mrs. L. Myer in their sad bereavement.

Little Anna, Liss Rosenbaum returned home last week after spending three months in the hospital.

Miss Georgina Gardiner had the misfortune to fall off the pile and badly damaged her ear.

Mr. Elwood Plaxton has been assisting his brother Marvin with his spring work.

Mrs. Henry Myer, of Ponoka, has been spending a few days at the home of Mr. L. Myer.

TWENTY YEARS AGO

Mr. B. N. Taylor, better known as "Red" Taylor of Buffalo Park fame, arrived in town on Tuesday evening. He was given three regular leave of absence and planned to visit Mr. and Mrs. A. G. Smith.

Mr. H. Y. Pawling moved his family into the Graham house last week, Verny having moved his family out to the farm.

Mr. E. Demontour left this week for the east to spend a holiday with relatives.

HEATH

Mr. and Mrs. Fred Mockford left on Sunday for their home in Sudbury. Bert McDonald also returned to the east during the week.

Henry Touchette and Gerard Touchette were visitors in Chauvin on Thursday.

Mrs. Gripp and Leona are staying with Mrs. P. Herbert.

Sympathy is extended to Mrs. Averson, who is ill in the hospital.

North Edgerton

Mr. MacMurdo, we hear, is planning another trip to Cold Lake, this summer.

Rain, the farmers' "joy-word", appears to be the order of today, much thunder and lightning on Sunday night with a light shower, but this morning about 8.20 it has developed into a regular downpour. We hope it keeps up, for the month of June is just around the corner.

The girls were supposed to play last Sunday but the big sports day in Edgerton on Saturday left them quite tired. Anyway, only four girls turned up (that's off to them, real sports, I'll say) but the boys helped them out, even some married men did their bit, but they are supposed to be part female once they tie the knot.

We notice many young gophers out now playing around the Edgerton bridge on Sunday. They will get quite tame seeing so many people there playing ball and swimming. The children will, if they bring the dogs with them some Sunday, be able to have a (fox) gopher hunt.

Pelican and Waverly played softball on Sunday. The final score is not known but Waverly were easily the winners.

Whilst our dear government is away helping our cousins in Saskatchewan, we are having rain. No doubt this rain will do more good than Social Credit ever did.

Town Boy Out to Make Good

(Continued)

R.M.S. Niagara, En route Victoria to Honolulu

Sunday afternoon, about halfway between ports with miles of very deep blue Pacific in all directions, a gentle breeze blowing, the day brightening down—so I take the opportunity to report a few highlights of the trip. On the top deck most of the passengers lie sprawled out on blankets in various stages of sun-bathing. In the lounge and in the dining room music from the radio of the saloon.

The Niagara, though old and due to be scrapped in two years time, is comparable to the best in the world for sea comfort, according to those of our passengers who have travelled on ships on the Atlantic routes. We cover about 575 miles per day, our best so far being 350. The crew is of Australian ports which is easily apparent from the decided accent that in some instances is almost beyond understanding.

At nine p.m. we backed away from the outside pier at Victoria, turned and headed southerly, the lights of the port and lighthouse fading into the night behind us. About an hour later I saw the lights of the port and lighthouse fading into the night behind us. About an hour later I saw the lights of Seattle far off to the east.

The sea was very rough the next morning and the ship rose and fell through a great distance. Most of the passengers were in various degrees of seasickness, including your reporter, who throughout the day longingly wished to be back in Wainwright or somewhere solid. We put up with that however, and now our sailing is smooth, with fine weather and very bright sunshine.

We are fortunate in having with us a company of 20 entertainers, that has been booked for a circuit in Australia. This includes two singing troupes; a juggling troupe; a trained dog and magic act, which utilizes two very well-trained dogs and one clever little boy; a magician; a comedy team an ex-cameraman and several other individuals. Most of these have travelled some in playing in America, Europe and Asia. There are also two wrestlers, five hundred pounds of bone and muscle, who entertain us, while keeping themselves fit. The whole company is a welcome addition to the

passenger list on such a cruise, when there is so much time to utilize.

245 miles from Honolulu

May 17th

One man and his wife, of Adelaide, are returning home after an eighteen-month round the world cruise, which started with a trip to the coronation in London, and which has taken them through India, the Mediterranean, Italy, Switzerland, Germany, France, Britain, U.S. and Canada. They impress upon me the great advantage of belonging to the Empire, as they were impressed in turn by the great lack of freedom apparent in European countries, especially Italy and Germany. They commented very favorably on the Canadian Rockies, claiming that they were more scenic than the Alps.

Another interesting passenger is a Roman Catholic priest who is going to Sydney to organize a school for the teaching of ill-reading to the deaf. He has apparently organized schools of this type in several countries.

An Anglican missionary is getting off at Suva to go to the Solomon Islands to carry on a mission there. He has been home on holidays. He tells some interesting stories of these tropical islands and the native people. There are a great number of Jewish families from Germany, who are going to seek residence in Australia. Persecution in Germany has driven them to leave the land of their birth during its unsettled transitional period in its history.

A government-sponsored paper industry in Tasmania has attracted a group of paper men from Ocean Falls, B.C.; they have carried on experimental work there and are now going to establish the plant in Tasmania.

There are many other interesting people aboard but time nor your patience will not let me tell you of them. Every two days we have talking moving pictures, dancing every other night and all sorts of deck games throughout the day. On Sunday there were Jewish Roman Catholic and Anglican services.

Today we sighted two huge whales, a shark, and countless flying fish, so we are approaching tropical waters. We are coasting along at ten knots today, as ships are not allowed to dock before sunrise and we have but a small distance yet to go before we land at Honolulu. Here I hope to see many things strange to the eyes of a prairie-dweller like myself. Aloha K. (KEN) S. TORY

HOPE VALLEY

Although a very small crowd attended the dance at Rosedale on May 18th, a most enjoyable time was had by those in attendance.

Miss Olga Tomsek is now working for Mrs. Traynor in Gilt Edge. The J.U.F.A. meeting was held in Gilles school on May 18th, and it was decided to sponsor a dance in Gilles schoolhouse on June 10th.

SYDENHAM

Mr. S. Merrick and his sisters are enjoying a visit with relatives from Ontario.

Miss Hilda Daugherty spent the holiday at the farm with Miss June Seabrook.

A few of the young people enjoyed a picnic by the river on Victoria Day.

Mr. L. Alexander, of Irma, and Mr. S. Romo are busy putting in a crop on the north-west quarter of Mr. O. Croteau's farm.

Mr. and Mrs. Glenn Haire were guests on Sunday at the home of Mr. and Mrs. J. Daugherty.

A very welcome shower of rain fell in this district on Friday night, doing a lot of good after the hot, dry winds.

On the Gasoline Circuit — by A. B. CHAPIN

"Up in the Clouds"

by Beulah Earle

Two more days and Mont would be roaming over the ocean on the moon impossible flight in history. Something gripped at her heart. Something told her she would never see him again.

She stood up and moved to the window of the room. Children were playing at the curb. The world was going on without a thought of impending tragedy.

She tidied her hair and renewed the light make-up she wore. But panic was upon her. She had to see Mont quickly. His room, she knew, was at the end of the short hall. She slipped along the worn carpet and tapped gently at the door.

There was no response. Someone was coming up the twisted stairs. She turned the knob of the door and slipped inside.

Mont was asleep. He had thrown off coat and shoes and stood. For a long time she stood there, listening to his heavy breathing. Then very quickly she moved forward and sank to the floor beside him. She laid her cheek against the sleeve of his shirt.

She would stay there a little while guarding him with her love. And now her fear fell from her. It was as though his nearness and her adoration for him had driven it out.

Her throbbing heart grew calm. She knew content again.

And so she fell asleep beside him and did not wake till early afternoon.

"Is this nice?" he asked, seeing that she was awake.

She sprang up quickly but he caught her hand and drew her down beside him.

"I'm in a hell of a fix," he said, her hand to his lips.

"She could not speak."

"I'm supposed," he chuckled "to be a devil with the women. I've been that way deliberately so that I would not ever want to marry anybody. Now I've got myself in a spot where you come in here and wake up and you are just as safe as though I didn't love you. What's the answer?"

"Maybe you really do love me," she said faintly. "You've only wanted me before."

"Well, it's a new one on me... and I love you all right. But there isn't going to be any marrying in our business."

He spoke a little angrily, she thought, as though he fought against something.

He whipped a glance at the watch on his arm. "We'd better be getting back to the field. They'll be looking for us."

She went back to her own room then, but her heart was singing as though in triumph. It seemed queer about that when he had just told her they were not to be married. She wondered about it a little but there was no explanation—unless it was that her heart knew better than her mind that he loved her as she had to be loved.

He came for her in a few minutes.

Hints for the Household

Conducted By Betty Barclay

Lemons With Meat
Cold Cuts: Decorate platters of cold sliced meats with lemon garnishes.
Grills: In serving the most grill combinations now so popular, lemon garnishes have a place.
Steaks: To give a delicious flavor to steaks, let stand overnight in mixture of: 1-3 cup lemon juice, 1/4 cup salad oil, 2 teaspoons onion juice or scraped

onion, and 1 tablespoon Worcestershire sauce. Broil or pan-fry.
Roast Lamb or Veal: Just before carving, pour generous amounts of melted butter over hot roast lamb or veal. Follow with an equal amount of lemon juice. This imparts a delicious flavor. Lemon is an especially excellent flavor accompaniment for veal in all forms.

Sunkist Salad Bowl
(Serves 4)
1 cup Sunkist orange segments (or halved slices)
1/2 cup peach slices
1/2 cup pear slices
1/2 cup seedless grapes
3 tablespoons lemon mayonnaise
1 tablespoon orange juice
Combine fruit. Blend mayonnaise with orange juice and put over fruit. Arrange in lettuce-lined salad bowl.

Variations: For peach or pear slices substitute apricot, apple, avocado, or banana slices; for grapes, substitute cherries or melon balls. The orange segments or slices, however, should always be included as the basis of the salad.

GUEST "DELIGHTERS"
Many a simple meal may be turned into a company repast by the addition of an attractive and novel relish or salad—adding touch that always delights the guest. Here are two recipes for such dainties that may be prepared in the morning and served either at the noon or evening meal.

Cottage Cheese with Tomato Jelly Sauce
1 package salad gelatin (aspic)
1 cup boiling tomato juice
1 1/2 cups cold tomato juice
2 cups cottage cheese
1 teaspoon onion juice
1 1/2 tablespoons chopped parsley
1/4 teaspoon salt
Few grains pepper

Dissolve salad gelatin in boiling tomato juice; add cold tomato juice. Chill until firm. Add remaining ingredients to cottage cheese and pack into pint mould. Chill. Unmould cottage cheese on shallow serving plate. Break up jelly tomato with fork and place around cheese. Serve as a relish with cold cuts or mixed salad. 8 servings.

Moulded Potato Salad
1 package salad gelatin (aspic)
1 cup boiling water
2 eggs
1 tablespoon sugar
1 teaspoon salt
1/2 teaspoon dry mustard
2 tablespoons vinegar
1 hard cooked egg, chopped
1 tablespoon chopped onion
1/2 cup chopped celery
1/2 cup chopped cucumber
1 tablespoon chopped parsley
1 1/2 cups cubed potatoes

Dissolve salad gelatin in boiling water. Beat eggs; add sugar, salt and mustard. Add hot gelatin mixture slowly, stirring constantly. Add vinegar; chill until mixture begins to thicken then add remaining ingredients. Pour into mould and chill until firm. Garnish with strips of pimiento. 8 servings.

There were two pilots on the plane going home.

Natalie could have screamed when she saw them, for they reminded her again that Mont Wallace was alone as he fought his way across the Atlantic.

It was all she could do to bring herself to enter the roomy tri-motored plane that afternoon when she knew that it would still be hours before any possible report could come from the lone flier. She wanted to cling to the window of some telegraph office, or better still, to sit at the elbow of one of the radio operators in the world-fight chain.

Continued next issue

"To be continued," she wrote for a last paragraph. "To be continued is the story Mont Wallace writes in the clouds and sea today. It's the continuing is the epic of the Twentieth Century's fourth decade as one tumbled-headed youth rises high to now fame or to death."

She did not break when the story ended. She did not stop till the last page had been thrust into the hands of the waiting boy and hurried on its way.

SMOOTH, tangy rhubarb ice enters on the spring scene in a dual role, either as an accompaniment to meat or fish, or as the dessert course following a substantial meal. Served with cookies, it is also the ideal refreshment for informal parties and gatherings.

RHUBARB ICE
(Serves 6 to 8)
4 cups rhubarb (cut in small pieces)
1/2 cup water
1 cup and 1 tablespoon sugar
3 tablespoons lemon juice
1 egg white

Cook rhubarb in water for about 8 minutes. Remove from flame and add 1 cup of sugar. Stir till dissolved. Add lemon juice. Set aside to cool. Meanwhile, beat egg white until stiff, and add 1 tablespoon sugar slowly, beating constantly. Fold into rhubarb mixture and pour

in freezing container of modern ice cream freezer. Fill not more than 3/4 full. Assemble and cover. Surround with 3 parts crushed ice and 1 part rock salt. Plenty of ice is always available when one has a modern air-conditioned ice refrigerator.

Freeze for 5 to 10 minutes, of until turning becomes difficult. Carefully remove cover, take out dasher and pack down the ice with a spoon. Replace cover, draw off water, and replenish ice and salt mixture. Cover and allow to harden. Let stand 1 hour before serving.

CANADIAN GARDEN SERVICE Gordon Lindsay Smith

TRANSPLANTING
In transplanting anything from a tiny bit of alyssum to a ten-year-old maple tree the experts always stress the same points, water and stimulant. Transplanting is a shock, though not necessarily an unfavorable one where the operation results in more space and freedom to grow.

Before or immediately after transplanting most flower buds should be pinched off and also unwanted side stems. If a branching plant is desired a few inches should also be clipped off the top stem. With shrubbery and trees vines and roses it will be best to shear off some of the top growth, to compensate for the loss of roots which were broken in the original removal.

After planting ground about the plants should be soaked with water and kept soaked for a week or so. It is a good plan to add some commercial fertilizer dissolved in water and in the case of small things to protect from for a day or two.

General Hints
Once again the beginner is warned against too deep, too early and too close planting of vegetables and flower seeds. Nasturtiums, peas, beans, corn and such large seeds should go in about an inch or so and be planted at least three or four inches apart. Tiny seed like alyssum, poppy and onion is merely pressed into the soil. Before sowing mix with a little sand to help spread the sowing more evenly.

Medium sized flowers like scabiosa, aspidistra, zinnias and phlox require when fully grown about 15 inches of room while tall corns, hollyhocks and the bigger rhododendrons need about two or three feet. In the vegetable line, carrots, beets, head lettuce and spinach can go in rows from 12 inches apart up. Beans and peas require a minimum space between rows of about 15 inches, corn and stalked tomatoes at least 18 inches.

Window Boxes
A brown or green stained window box overflowing with gaily blooming flowers is within the range of almost every person. Lack of ground space

does not matter. Even the lofty apartment dweller is able to satisfy a gardening ambition. Success is easily obtained provided two or three points are kept in mind. This sort of gardening is highly intensive with many more plants to the square foot than would be grown under ordinary conditions. This means that very rich soil should be used and in addition a fairly frequent application of chemical fertilizer during the season.

Being exposed on all sides to drying winds, a thorough watering once a day of the window box is advised. The box should be as long as the window and should be arranged so that the top of it is almost flush with the window-sill. If higher, the foliage of plants will soon fill up most of the window. There must be holes in the bottom to provide drainage, and also a layer of gravel, cinders or similar material for the same purpose. The box, which should be at least eight inches deep and from eight to ten inches wide at the top, should be filled to within half an inch of the top with very rich soil.

Along the front trailing nasturtiums, German ivy, lobelia, alyssum, and similar plants are put in, with penstemon, ageratum, begonias, ferns, geraniums and other plants especially recommended for this purpose further back. Shelter from the sun for a day or two should be provided until the plants get established.

Kitchen Gardens
In the kitchen garden it is advisable of course to keep a plentiful supply of salad material like leaf and head lettuce, onions and possibly celery. The latter is set out in the garden as well started plants usually after all danger of frost is over. For fall storage, planting takes place in June or even July.

SLAT'S DIARY

Sunday: After the sermon at church as we were going out & the preacher was at the door shaking hands & asking us back Pa sat him how long had he preached. The Rev. replied & said about 10 yrs. Then Pa got in bad by saying it didn't seem quite that long to him. Pa went today. Probable.

Monday: Ant. Emmy is sore at both Pa & the editor of the newspaper he works at. They printed a peace about her going off on a visit and it was in the column headed City Improvements. Ant are 2 pence today.

Tuesday: Blister called on a new naber girl last evening & they turned on the radio & was dancing when her Pa arrived home & grabbed Blister & flung him threw the door. Blister & the girl and her Pa are dead & so didn't here the music. I suppose he thought Blister was going slow at the start 2 fast.

Wednesday: The teacher set to Jake to write a essay on the word spine. In about 1 hr. Jake has it ready. He wrote: Your spine is a long limber jointed bone that runs from north to south threw evry boddie. Your head sets on 1 end of same & you set on the other. (That wld do so the teacher)

Thursday: Jake & Blister come across a couple of bumble bees after school. They didn't no what same was & got to monkey with same & found out and learnt a lesson both at once. The lesson is not to enquire to much in to other people affairs.

Friday: It were warm and windy & dusty and etc. yesterday and I were swetty. I suppose I accumulated some of same as this a.m. Ma made me wash my ears about 1/2 a doz. times. I am sorry for kids in the dust hole.

Saturday: Life & luck and etc. is funny things. Last yr. on my last fishing trip I had a big lotta worms to feed the fish and they wasent hungry. Not a tall. Today I had only 2 worms & they didden hardly eat till they was gone. I reckon the fish was sorry how they treated me last yr.

FREE LENDING LIBRARIES

Are being placed at one line county elevator in the towns, villages and hamlets throughout the areas of Western Canada which have suffered crop failures as a result of lack of rainfall in recent years. These libraries, which owe their initial inception to Her Excellency The Lady Tweedmouth, are made possible through the joint efforts of the Association of Canadian Bookmen and other public-spirited organizations and citizens throughout Canada. The North-West Grain Dealers' Association has made itself responsible for the expense of housing, distribution and circulation of the books.

Members of families, regardless of which elevator system or company they patronize, may obtain the loan of books from this library without charge. When the books in a library have served the needs of a community another unit will be moved into the district.

If your community has not yet received a library, and you desire one, communicate with your line elevator agent or write to

North-West Grain Dealers' Association
WINNIPEG, MANITOBA

Every Fifth Worker Has a Job in Textiles

IN EVERY 100 urban industrial workers of Canada, 21 have jobs in the textile industry. The Dominion Bureau of Statistics states that next to the group of manufacturing concerns classified as "miscellaneous", the textiles provide employment for the largest number of workers in this country.

THE AMOUNT OF MONEY paid every year to textile employees is exceeded only by that paid those engaged with iron and its products.

SO TEXTILES MAKE EMPLOYMENT for every fifth industrial worker. Textiles stand second to all others in numbers of men and women employed and in money paid for that employment.

DOMINION TEXTILE COMPANY is a part of this century-old industry which provides year-round employment to help make Canada one of the important manufacturing countries of the world.

Mr. Local Merchant WILL YOU HELP US HELP YOU?

We're partners, in a way, for we depend upon each other for our success. Your advertising is a help to us in operating this newspaper and our newspaper carries your advertisements to more than 4000 readers in the Wainwright district and plays a major part in your business progress.

We both know that advertising pays dividends in increased business with a corresponding increase in profits and so we ask you to cooperate in a campaign to increase our advertising and your business.

Speak to the travellers and manufacturers' representatives visiting your store. Impress upon them the fact that you have found the "Star" a valuable advertising medium and urge them to suggest to their firms that the "Wainwright Star" be added to the list of publications which carry advertisements for their nationally-known products.

Experience has taught you that advertising pays and if national advertising in the "Star" is increased you KNOW that your sales will show a sharp upward swing.

We're partners, you know, so let's cooperate.

THE WAINWRIGHT STAR

S

VERY LATEST By Patricia Dow

Designed in Sizes: 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100. Size 14 requires 4 1/2 yards of 39 inch material, plus 3/4 yard contrasting and 1/2 yard ribbon for bow.

DESIGN FOR SPRINGTIME

Pattern 8943: In the language of the campus this frock has that thing called "swing"! In anybody's language it's a low and a delight. This is a model nearly all can wear gracefully because it's simple and flattering. Each line does something remarkable for the figure and no matter how kind mother nature was, this frock goes her one better. The neckline is young, the pert sleeve berrities are slick and the waistcoat bodice is most intriguing. Make this fetching frock of silk alpaca or a charming new print for the kind of chic you have in mind.

For Pattern, send 15 cents in coin (for each pattern desired your NAME, ADDRESS, STYLE NUMBER and SIZE to Patricia Dow, (Wainwright Star) Pattern Dept., 115 First Avenue, Brooklyn, N.Y.

NEWS & VIEWS OF TOWN AND DISTRICT

The sale at the Bill Daugherty home on Saturday last drew quite a large crowd and lots offered at brought good prices. Mr. and Mrs. Daugherty leave with their family on today's train bound for their former home in the Isle of Man.

A number of carloads attended the sports day at Vermilion on Tuesday last, and some of the younger folk took part in the contests to their financial increase.

Several of the town's people drove to Viking on Sunday to be present at the opening of the Mount Carmel church which was built to replace the church recently destroyed by the windstorm last fall.

Mrs. E. Peterson is enjoying a visit from her sister from Ottawa, as well as a brother from Montana.

Messrs. E. Walker and V. Devignon were both in town last week visiting their parents here.

Mr. and Mrs. John Mitchell spent a couple of days in town last week.

***The big paint sale at the Atlas yard is still on, and here's where you can buy the best grade of pure white lead paint at \$3.40 per gallon. Now is the time to stock up with paint. Get it from Joe Welch.

A new John Deere rubber-tired tractor from the Lou Tory agency has now been delivered to the Mrs. L. Plust farm.

Mr. Beatty Beaulier was in town from the south over the week end.

Sympathies are expressed to Mr. H. Macdonald upon the death of his nephew, Walter Detro, at Hardisty last week. The young man was fatally injured when a tractor he was working ran over him.

Mr. Frank Worth is now filling his new position at the Gold Standard refinery.

Mr. Pete Cherski and family arrived in town at the week end and they are now residing on Fourth avenue west. Mr. Cherski has taken over the shoe repair recently in the hands of Mr. R. T. Wright, who has returned to Hardisty.

Last week end saw the thermometer registering away up; 87 in the shade and 106½ in the sun at 3:20 p.m. on Friday!

***Burny Calver, Iva Corn and Ritch To were friendly with Jerry Foot until Cress Corn Salve removed them. Sold by Wainwright Pharmacy and all drug counters.

Everyone interested is reminded that the meeting on Thursday evening is at eight o'clock in the Town Hall, and this meeting will decide regarding the holding of a celebration on July 1st.

During his stay in town over the week end, Bishop Burgett, of Edmonton, was a guest of Rev. and Mrs. Rickard at the vicarage.

Messrs. A. Sawers, F. Thurston and W. Carell are in the city this week on business connected with their duties on the school board.

Notice

ALL ACCOUNTS DUE AND PAYABLE TO MR. R. T. WRIGHT WHO HAS NOW GIVEN UP BUSINESS IN TOWN, ARE TO BE PAID TO ME AT THE STAR OFFICE, TO SAVE FURTHER EXPENSE.

MISS E. WRIGHT

ABSOLUTE PURITY!

That is our guarantee to you with every pint of Milk or Cream you purchase from us. Our herd of pure-bred Holsteins has been government-tested for your protection. Sanitary methods of handling and storing assure you pure and wholesome milk at your table. Milk is the ideal food for all the family but you cannot take chances on its purity.

Mr. Alec Adams was the appointee on Monday to represent St. Thomas (Ang.) parish as lay delegate to the diocesan synod in Edmonton this week.

Mrs. J. Mackenzie was entertaining visitors last week in the persons of her mother and sister from Chauvin for a few days.

***Whether to build or repair you can obtain all your supplies from the Atlas Lumber Co. See Joe Welch.

Old-timers of town will be sorry to learn that Mr. Archie Watt, first locomotive here, died on Friday last at Chilliwack, B.C.

Rev. P. Rickard, with his wife and young son, are in Edmonton this week where Mr. Rickard is attending the synod.

We are glad to know that Mrs. W. Milner is now improving following her operation last week.

Mr. Chas. Horn was nursing an attack of the flu last week but is now feeling better.

Mr. Frank Wright was over from Camrose on Sunday to visit his parents here.

Mr. John Moore, of Hope Valley, left last week in search of better health.

***A car is fully as dangerous a weapon as a loaded gun in the hands of a nervous man. Don't lose your fortune; let us take the chance. Insure your car with Joe Welch.

Mr. and Mrs. L. D'Albertanson Mr. and Mrs. P. Perry and Mr. R. D'Albertanson were all up from Chauvin last week visiting friends here.

A merry party of youngsters fittingly celebrated the birthday anniversary of Master Lorne Good on Friday afternoon last.

Miss Mary McQuaker, who was taken to hospital last week end, is now reported feeling better. Her sister, Margaret, is also a patient there, having undergone an appendix operation on Saturday.

CARD OF THANKS

We wish to express our heartfelt thanks to all kind friends and neighbors, and also to the doctors and hospital staff, for their sympathies and assistance in our sad bereavement by the death of our little baby son, Darryl.

Mr. and Mrs. L. Myer and family

The Legion Notice Board

Monday next, June 6th, is the date of our next branch executive meeting. On Friday, June 10th, we are to have the pleasure of a visit from Lt.-Col. Pitman, of Chauvin, who was a delegate to the last Dominion Convention of the Canadian Legion, at a general meeting to be held in the Masonic Hall on Friday, June 10th. It is to be hoped that there will be a large attendance of ex-soldiers at this meeting and we wish it understood that all ex-service men are very welcome. (These meetings are not restricted to paid-up members of the Legion only.)

On Friday last we had the privilege of representing this branch of the Legion at a meeting called by Mayor Middleton in regard to a Dominion Day celebration in Wainwright. The Legion has always been more than willing to help in any movement or on any occasion having to do with community welfare. We can point with pride to the fact that we have been behind every public celebration held in the town of Wainwright since the Legion was formed. This time, judging by the pitiful attendance at this meeting, there is nothing to get behind.

Mr. W. E. Washburn motored down to Calgary at the beginning of the week on business.

We regret to learn that Mrs. Jesse Dowling has been taken seriously ill and was taken to hospital on Monday. We extend hopes for a speedy and complete recovery.

Mr. R. H. Tony had quite an experience on Monday night when he drove his car into the slough and discovered the water to be waist high—and awful cold!

A large number of the public school pupils journeyed to Irma on Saturday last, to take part in the sports meet there. They all had a real good time, too, and made good in several events.

Mr. and Mrs. J. Heidt moved into town from the city on Saturday. They are now living on Main street north.

***Last year in Ontario 686 people were killed and 12,082 injured in motor car accidents; besides the thousands of cars smashed. In Alberta the losses from car accidents were greater per capita than in any other province. Drastic amendments to the Criminal Code will provide a curb to reckless drivers, especially if they are unable to pay for all damages. A modern car is a dangerous weapon, and no prudent person will drive one that is not fully insured. Joe Welch, auto and fire insurance.

In order to attend the sessions of the Grand Chapter O.E.S. Messrs. W. Washburn, A. Ford and P. Lepper left for Banff at the beginning of the week.

Principal Meade, with a few of his young helpers, has certainly made a big improvement to the tennis courts, and play is to commence there right away. Membership tickets are now being offered.

A couple of Wainwright young people entered the married state last week in the city when Miss Connie Burdon and Mr. Jack Taylor were united in wedlock. Mrs. J. Taylor and her son Jeff went to Edmonton for the occasion.

Miss M. Aston, of Camrose, was visiting friends in town at the week end.

The Town Band started their practices on Thursday last with a nice attendance, and ALL interested musicians are asked to get in touch with Secretary Earl Cork at once.

Mr. J. W. Frazer was in the city on business last week end.

Mr. Edgar Thirk and family, from Ardmore, Alta., moved on to the old Wood-Wainwright farm west of town last week.

A resident of Birmingham, England, has one of the most peculiar jobs in the world. He collects insects, cuts them in two, and mounts them on slides for microscopical investigation by students and scientists throughout the world.

Everything You Own Is Too Much To Lose

Everything you own—everything you saved—your future comfort—your family's security, is at stake every mile your car is driven without insurance. More people are killed, maimed and crippled every day by cars than were ever killed in one day in any war ever fought. Nothing is more dangerous to own than a car, not insured.
